WORK EXPERIENCE

Mobile Developer Intern Exolve Technologies Limited
05/2023 – 11/2023

- Collaborated with senior developers to design, develop, and maintain mobile applications for both Android and iOS platforms.
- Conducted thorough testing on new applications, identifying and resolving bugs to improve app functionality and reliability.
- Assisted in the development of cross-platform solutions using Flutter, enabling consistent user experiences across multiple devices.
- Worked closely with the UX and UI design team to ensure app designs were both attractive and intuitive for the end-user.

PROJECTS

Car Care - Car Care app is an app built to help car owners better manage maintenance and services for their vehicles. My primary role on the project was taking the initial UI/UX design comps and converting them into a UI-ready mobile application using flutter.

Cosmic - Cosmic is an educational app focused on teaching users about the Sun and planets in our solar system.

Key Tasks: Stored user profiles and preferences locally with Hive, Synced Hive data with Cloud Firestore seamlessly, Added features like favoriting planets, tracking progress.

SoleSeekers - SoleSeekers is an E-Commerce app which provides a seamless and immersive platform that caters to the diverse preferences of shoe lovers worldwide.

Key Tasks: User onboarding authentication using firebase Auth, Product browsing and searching, Shopping cart management, Secure checkout and payment gateways, Order history, User profile management (Editing profile picture, name and signing out, delete account).
